The payable amount is \$85,660.

Human Resources

Revisions #2021-302 to the HR "Definitions" policy #100

19. Approval of revisions #2021-302 to the HR "Definitions" policy #100 — Presented by Human Resources Deputy Director Ric Higbee

Revisions to Human Resources policies were presented. Many of the revisions were minor formatting and wording changes. The most significant content changes were highlighted during the Commission Meeting; several of these proposed changes are due to the impact of the County's new Kronos timekeeping system. It was pointed out that Commissioners have been working on these changes in work meetings.

Revisions to Policy #100 include a paragraph that covers pay and benefits for elected officials. That information was scattered through various policies and has now been consolidated into one general paragraph in the Definitions policy. There was also a revision in the section on overtime amounts for the Sheriff's Office. Previously, employees in the Sheriff's Office who worked more than 86 hours would earn overtime. The overtime calculation is being changed to 80 hours for Patrol and Administration and 81.75 hours for the Corrections Department.

Revisions #2021-303 to the HR "Time and Attendance" policy #220

20. Approval of revisions #2021-303 to the HR "Time and Attendance" policy #220 — Presented by Human Resources Deputy Director Ric Higbee

Policy #220, the Time and Attendance policy, also references overtime for the Sheriff's Office regarding the same 80 and 81.75 hours mentioned in Policy #100. There is also a proposal to increase the compensatory time maximum accrual limit from the current 80 hours up to 100 hours; that proposal is made in conjunction with the elimination of "specials" which are referenced in Policy #140 (see Agenda Item 22).

Revisions #2021-304 to the HR "Payroll Procedures" policy #430

21. Approval of revisions #2021-304 to the HR "Payroll Procedures" policy #430 — Presented by Human Resources Deputy Director Ric Higbee

The main change to Policy #430, which is the Payroll Procedures policy, is the addition of a new procedure for comp time payout. This will allow employees to request payout of their compensatory time at any time throughout the year, and it also defines a procedure for how that's paid out — particularly when an employee reaches the 100 hour maximum limit mentioned in the prior policy.

Approval of revisions #2021-305 to the HR "Leave Benefits" policy #140

22. Approval of revisions #2021-305 to the HR "Leave Benefits" policy #140 — Presented by Human Resources Deputy Director Ric Higbee

The main changes in Leave Benefits Policy #140 are regarding holidays and how holidays are paid. A paragraph on eligibility and the amount of holiday time paid has been changed. The current policy said it is for hours normally scheduled; that is being changed to be eight hours consistently for all full-time

COMMISSIONERS' MINUTES – DAVIS COUNTY

employees, and six hours for part-time merit employees, making those rates and amounts more consistent for holidays. The next change is regarding holidays that are worked. Currently, for any employee who is required to work on a holiday, and particularly the Sheriff's Office, the policy is to pay for hours accrued throughout the year known as "specials." That practice is being eliminated and replaced with the practice of paying them on the holidays that they work or giving them the option of banking those holiday hours into their comp time leave balance.

It was pointed out that there's been a lot of time spent, not only within the Human Resources Department but also working with the different groups, to get these policy changes figured out.

COMMISSION COMMENTS

Commissioner
Elliott

Commissioner Elliott said that Senator Lee joined the Commissioners at the DATC (Davis [Applied] Technical College) to look at innovation programs. They also visited undisclosed locations related to drone work. On Saturday, Commissioners and members of Senator Lee's staff looked at problematic areas of Ward Canyon, where there have been some fires and shooting issues. Last week, with the Forest Service, they looked at cabins and beetle kill problems. Trees killed by the beetles are hollow inside but the pine needles stick to the trees. Trees could be dead for five or ten years, and their needles are all stuck to them, so they are just like a torch. Mitigation is difficult because it is in a wilderness area. People can go in and harvest firewood but can't go in there and timber it due to Forest Service rules. Commissioners are trying to get some of those mitigation issues resolved because it is a problem. Many of the pine trees are the same age because of restoration projects, and these beetles will go through and kill everything.

Commissioner Elliott gave a reminder that the Fourth of July is coming. He asked everybody to adhere to the rules and regulations regarding where fireworks can and cannot be set off, and to please be careful and not set our mountains on fire.

Commissioner
Stevenson

Commissioner Stevenson said, regarding Commissioner Elliott's comments, that this is an area where Government has got to figure a couple of things out. If there is a pine beetle problem that is killing trees, and once the trees are dead they basically become a torch if they're hit by lightning or a spark of some kind, it starts a forest fire, which creates all kinds of pollution plus damage. The Forest Service won't allow logging to take place to be able to utilize the material that could help society as a whole, yet they'll turn around and allow possibly some private cutting for firewood. When you have firewood and you burn a fire, you create

COMMISSIONERS' MINUTES – DAVIS COUNTY

more pollution. That's one of the things the Government's got to figure out somewhere along the line — that logging is probably the least invasive process in the whole thing.

Clerk/Auditor Clerk/Auditor Koch wished everybody a happy Fourth of July.
